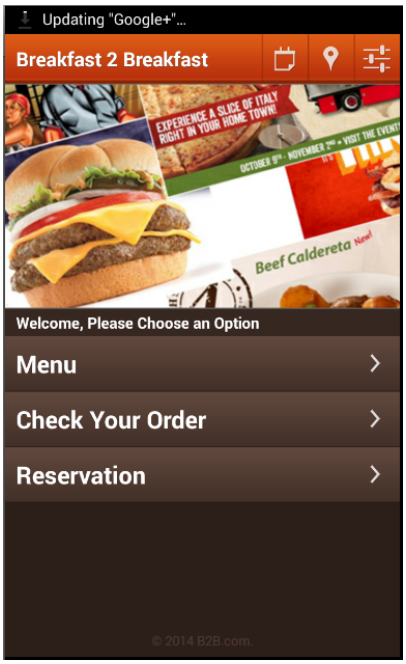
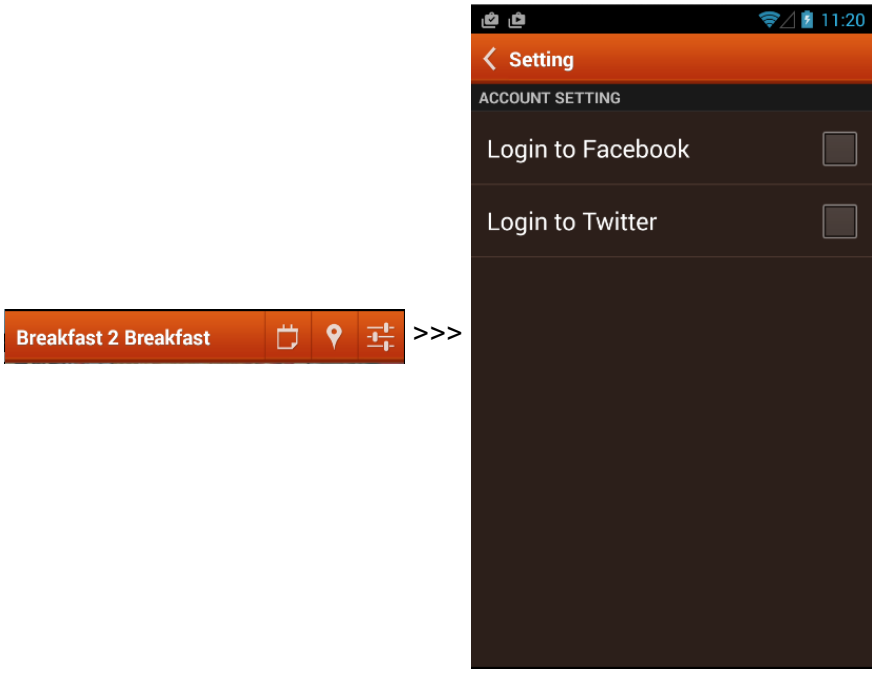
Explore The Main Screen



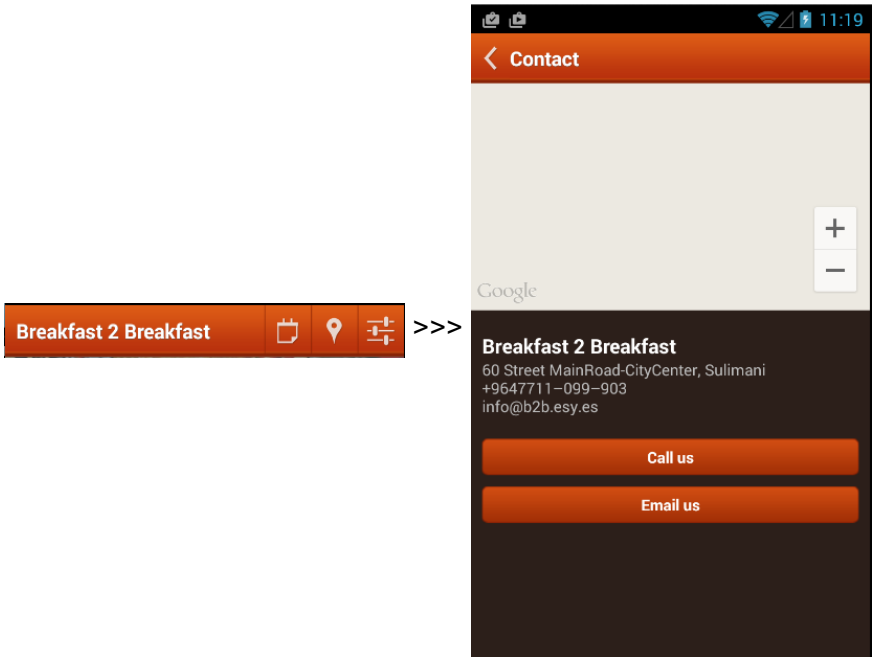
In order to get familiar with the environment, you need to understand each function in this application. Let's start with the **Main Screen**. The **Main Screen** is divided into two sections.
The first section is the upper banner (**Settings**). It has three buttons from left to right:

- **RSS News** where you can check for the latest news and offers from the restaurant … Check the RSS from time to time to get special offers and coupons.

- **The Contact Us** button where you can locate our restaurant on the Google Maps. You may can also call or email us with direct buttons.



- **The Settings** button where you can link your Facebook or Twitter accounts to the application. This will help you to share the meals you like with your friends and family on the social network.



The second section is the **Main Menu**, where you can check the meals, check your order, and reserve a table. (Please see next section)

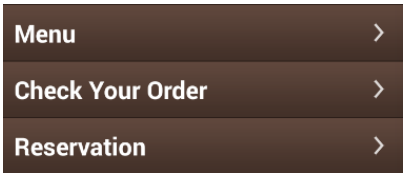
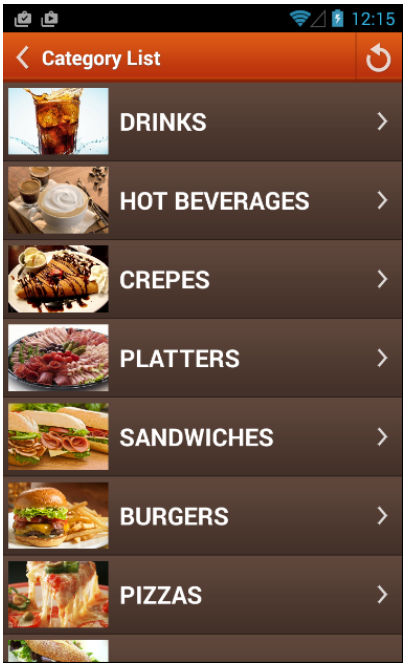
Order And Share Meals

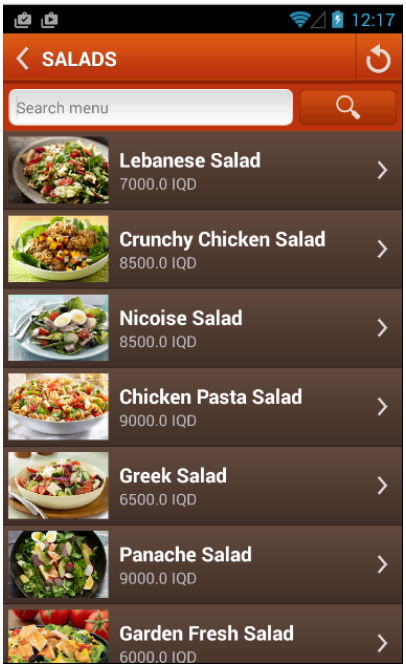
In order to check the meals that the restaurant has, you need to click on **Menu** from the **Main Screen Menu**.



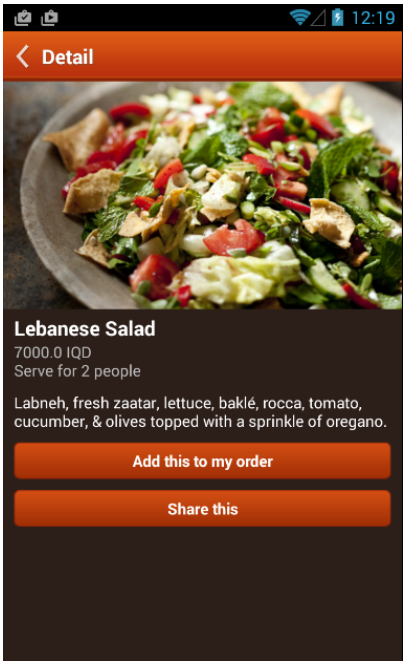
Now, a new page has opened. You may see the list of possible categories of meals the restaurant has. Please follow this task to make an abstract order just so you can get used to the process.



1- Please scroll down and click on Salads

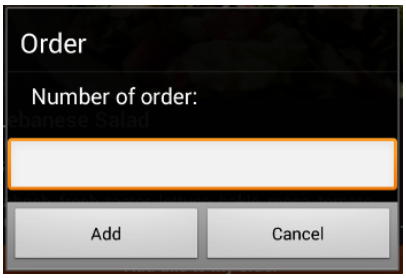


2- Now, click and choose **Lebanese Salad** … You can see now the price, how many people the meal is served for, and a brief description of the meal

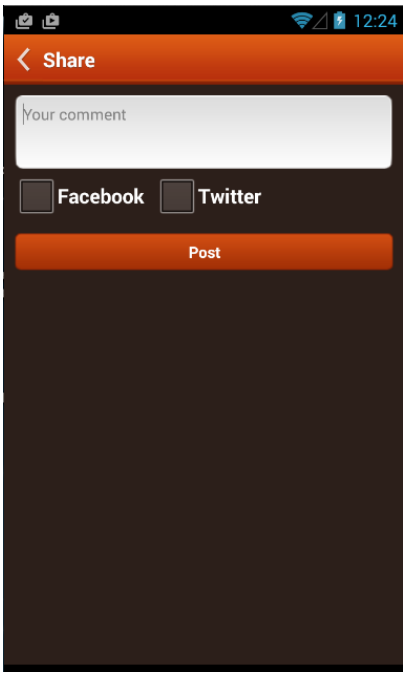


3- Now, add this meal to your order using **Add To My Order** button

4- You will end up with a pop-up message requesting the number of meals you required. (i.e how many Lebanese Salads do you want?) For our demonstration purposes please insert 2 and click **Add**



5- You can also share the meal with your friends on the social network using the **Share This** button

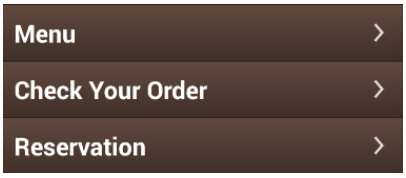


Please repeat the above instructions and try to add the following orders:

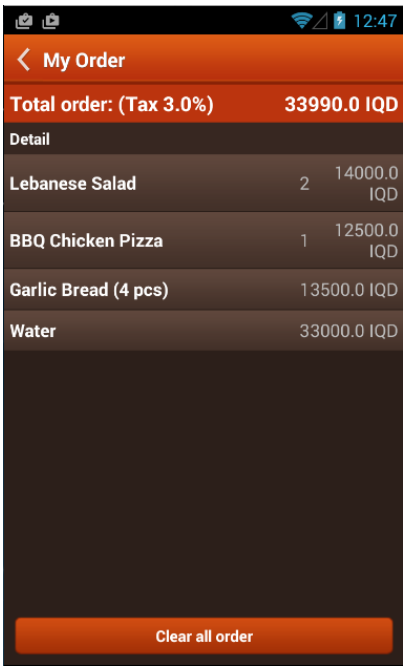
- Pizzas – BBQ Chicken Pizza – 1 Only
- Starters – Garlic Bread – 1 Only
- Drinks – Water – 3 Only

Check Your Order

In order to check the orders that you made earlier, you need to click on **Check Your Order** from the **Main Screen Menu**.

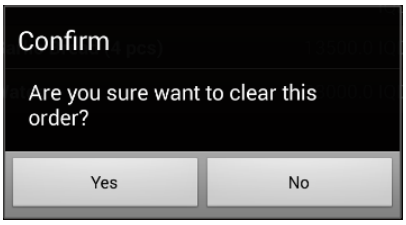


When you click on **Check Your Order** button, you will have a similar page to the following (If you have followed the instructions, you should have a similar page to the one below)

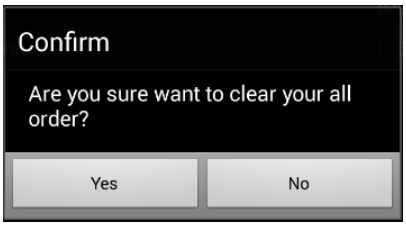


Not so much to do on this page. The top bar shows the overall total of the bill plus the tax or the service (Tax and Services may vary). In the middle, you will have a list of all the meals that you have ordered earlier.

You can delete any meal or order individually. In order for you to delete an order, please click for the undesired meal and delete it.
Please click on the **Garlic Bread (4 pcs) to cancel order. You will end up with a pop-up message to confirm the deletion. Please click *Yes**.

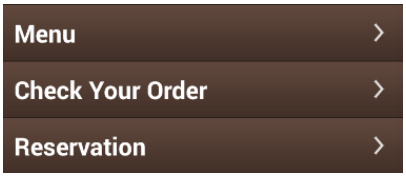


You can also delete the whole order by clicking on **Clear all order** button that is located at the button of the page. (For demonstration purposes, please do not attempt to delete the whole order)

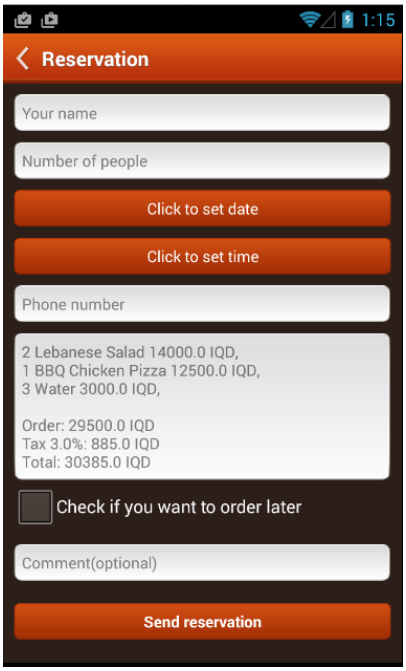


Send a Reservation (Reservation Form)

In order to reserve for a table and submit the orders that you made earlier, you need to click on **Reservation** from the **Main Screen Menu**.

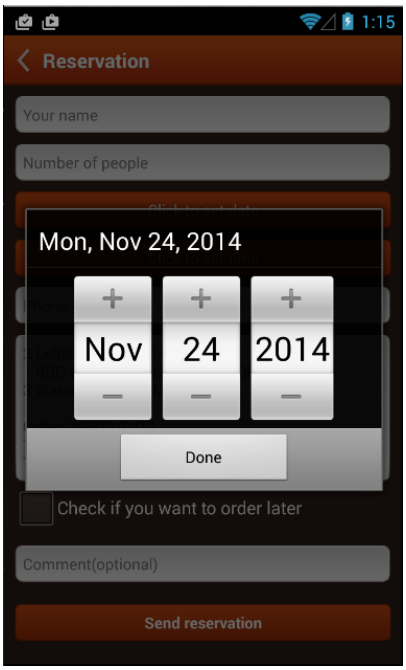


This is a form page where you enter all the information required to send a reservation to the restaurant.

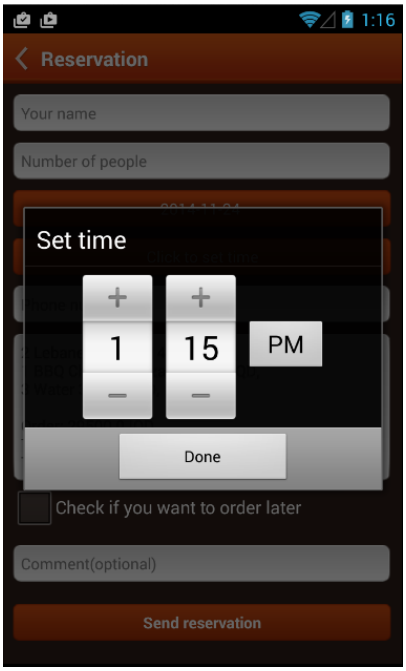


Please follow the instructions below to send a reservation:

1- Please add your name in the first text field **(This is a required field)**
2- Please add the number of people that you are reserving for **(This is a required field)**
3- Please click on the **Click to set date** … a pop-up screen will show up where you can add the desired date for the reservation **(This is a required field)**



4- Please click on the **Click to set time** … a pop-up screen will show up where you can add the desired time for the reservation **(This is a required field)**



5- Please add your phone number in the third text field **(This is a required field)**
6- **This field is not editable** … The sixth field contains a list of the orders that you have made earlier. It is not editable. It shows you the orders as a last chance reminder.

7- A checkbox – You may check the box to order at the table instead of ordering through the App **(This is an optional field)**
8- A comment text field which is self explanatory **(This is an optional field)**

After you finish all the required fields, you can click on **Send Reservation** and wait for text message to confirm that your has been proceeded.
